Office Action Summary

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-7, 9, 11, 13, 14, 27, 34, 35 are rejected under 35 U.S.C. 102(b) as being anticipated by Butterworth et al.

Butterworth et al teach a fabric softening composition comprising a Hydrophobically modified nonionic cellulose ether (Title) 10-24 carbon atoms are disclosed with Hydroxypropyl cellulose (column 2, lines 38-47). Water is disclosed (abstract). Emulsifiers, Germicides, soil release agents and fungicides are disclosed (column 6, lines 40-43). Viscosity modifying agents, including calcium chloride, are specified (column 6, lines 35-36).

Claim <sup>16</sup>19 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
